

First Tee - West Virginia Receives \$70,000 from TC Energy

Charity dollars support mission to advance First Tee - West Virginia Programming

CHARLESTON, West Virginia, Oct. 14, 2025 – TC Energy has selected First Tee – West Virginia (FTWV) as a beneficiary of its Annual Charity Golf Tournament, with a \$70,000 gift that will change the lives of West Virginia youth by helping FTWV fund school programming and expand course locations.

TC Energy is proud to fuel new factories, grow the economy and support the communities where we live and operate. This year's TC Energy Annual Charity Golf Tournament on Sept. 25 saw more than 400 golfers making up 108 teams play at The Resort at Glade Springs.

Across West Virginia, FTWV works in more than 200 elementary and middle schools, and at eight golf courses. Donations allow FTWV to provide curriculum, supplies and training to teachers and coaches while also offering scholarships to qualifying individuals to attend the First Tee golf course program.

"We are beyond grateful to be selected as one of the beneficiaries of the TC Energy Annual Charity Golf Tournament. These funds will help us reach youth across the state. When companies like TC Energy believe in our work and support our mission, we can provide opportunities to our youth through our golf and character education program," said Jeff Preast, Executive Director of First Tee – West Virginia.

FTWV's mission is to help young people by providing educational programs that build character, instill life-enhancing values and promote healthy choices through the game of golf. Under the West Virginia Golf Association, FTWV helps to shape the lives of young people from all walks of life by teaching values like integrity, respect and perseverance.

"It's incredibly rewarding to see our teams unite for this tournament—an event that continues to make a meaningful difference in the communities where we live and operate. Connecting people to the energy they need to thrive isn't just our business, it's our purpose. That purpose goes beyond infrastructure—it's reflected in how we show up for our communities, year after year," said Jon Draeger, TC Energy Vice-President, U.S. Projects.
