

First Tee-West Virginia Thanks BHE GT&S for Generous Donation

First Tee-West Virginia is proud to recognize the generosity of BHE GT&S, who donated over \$3,200 in support of the Clubs in Hands Campaign benefiting First Tee School Program. Over the past 3 years, BHE GT&S has donated over \$18,000 to the First Tee School Program and this has assisted tremendously with advancing our program.

The Clubs in Hands Campaign raises any necessary funds to establish the First Tee School Program in all West Virginia Elementary and Middle Schools. This contribution will directly impact the youth across West Virginia, opening opportunities to learn the game of golf and build life-enhancing skills like honesty, respect, confidence, sportsmanship, etc. The first Tee School Program is now implemented in the PE classes in over 200 schools across the state.

“BHE GT&S is proud to support First Tee-West Virginia as they strive to bring more youth into the game of golf. Their efforts are strengthening our communities and creating a brighter future for children around the state, as they increase both their physical activity and time outdoors.” -Jason Harshbarger, BHE GT&S State Policy Director for WV and OH.

BHE GT&S has been a valued supporter of First Tee West Virginia for many years, and this donation highlights their dedication to empowering the youth in West Virginia and growing our First Tee School Program.
